VALUE:
£600,000

GATESHEAD RAILWAY CLUB BAR FIT OUT

This project brief was the creation of a new ground floor bar and function room facilities for the Gateshead Railway Social Club.

The ground floor, being a semi basement, required extensive waterproofing, structural alterations, the insertion of a new mezzanine floor and new under slab drainage works.

The facilities provided included traditional bar, lounge, snooker and pool rooms, committee rooms, kitchen and washrooms.
